 - a. return such Product and debit Seller's account or demand a refund;

Such costs will include costs or damages imposed on Buyer by Buyer's customer as a result of Seller's breach of warranty, such as, e.g., delay damages or damages incurred by Buyer's customer of a similar nature to those described in this paragraph, and Seller acknowledges that such damages are reasonably foreseeable. These remedies are in addition to any remedies Buyer may have at law or in equity.
4. Any Products to which Corrections have been made by Seller, Buyer, or a third party under this Warranty clause shall be warranted by Seller for twelve (12) months after the date of such Corrections or the unexpired remainder of the warranty period as specified in the Order, whichever period is greater. However, Seller shall not be held liable for defects or failures attributable to misuse or negligent Corrections by Buyer or any third party.
5. If Buyer requires Seller to make Corrections to any noncompliant Products, Seller shall ensure that Buyer receives such corrected or replacement Products within a period of fifteen (15) calendar days from receipt of Buyer's notice, unless a longer period is approved by Buyer in writing.
6. Seller shall process and reimburse Buyer for any claim by Buyer for amounts owed by Seller under this Warranty clause within ten (10) calendar days after receipt of Buyer's claim. In the event Buyer's claim is disallowed by Seller, such disallowance shall constitute a dispute within the meaning of the Disputes and Governing Law clause.
7. Seller's obligation to meet the delivery schedule established in the Order shall not be affected by any Corrections made pursuant to this Warranty clause.
8. If Products furnished contain manufacturer's warranties, Seller hereby assigns such warranties to Buyer and its customers and users at any tier.
9. Buyer's rights and remedies under this Warranty clause shall, at Buyer's option, be assignable to and enforceable by Buyer's customers and users at any tier. Seller warrants that all Services performed under the Order shall:

- 11. Seller shall be responsible for:
 - a. reasonable administrative costs incurred by Buyer in identifying, determining the disposition of, and processing required documentation for the noncompliant Services;
 - b. reasonable delay and disruption costs incurred by Buyer; and
 - c. other costs or damages which Buyer incurs or for which Buyer becomes responsible because of Seller's breach. These remedies are in addition to any remedies Buyer may have at law or in equity.
- B. Seller acknowledges and agrees that any inspection, testing, acceptance or use of any Products or Services by Buyer does not affect Seller's obligations or Buyer's rights or remedies under the foregoing warranties.
- C. Seller shall immediately notify Buyer upon receipt of any Government-Industry Data Exchange Program ("GIDEP") Alert related to Products and shall provide Buyer with a list of all affected Products by Order, part number, invoice number, serial number, or any other identifying number as applicable. For GIDEP Alerts caused in whole or in part by the Products, Seller shall immediately replace all affected Products at its sole expense including any installation and removal costs for the Products so affected and reimburse Buyer for any damages and commercially reasonable expenses incurred by Buyer.
- D. If the Federal Aviation Administration, or other aviation authority, issues any Airworthiness Directives ("ADs"), or the equivalent of ADs, related to any Products, then Seller shall immediately remove the causes(s) of the ADs or AD equivalents in all Products delivered and to be delivered to each affected Buyer including, but not limited to, Products utilized in the field. Seller shall reimburse Buyer for all costs and damages associated with removal, redelivery and installation of any Products that are incurred by Buyer as a result of such ADs or equivalent ADs. Seller shall provide all service bulletins, safety bulletins and ADs (collectively "Bulletins") to Buyer immediately upon issuance. Seller shall implement any recommendations contained in the Bulletins on all Products delivered and to be delivered.

7. BUYER AUTHORIZATION

- A. The Authorized Purchasing Representative has sole authority to make contractual commitments on behalf of Buyer, to provide contractual direction, and to change contractual requirements as defined in the Order.
- B. Buyer's representatives other than Buyer's Authorized Purchasing Representative may, from time to time, release to Seller information applicable to the Order. If Seller believes that any such information so provided to Seller changes the contractual requirements and/or performance of the Order, Seller shall not act on such information, and it shall not be contractually effective unless and until Seller receives written contractual direction to act from Buyer's Authorized Purchasing Representative.

8. PRICES, INVOICING, AND PAYMENT

- A. Buyer shall pay Seller the price and/or rates set forth in the Order for Products received and/or Services performed, as applicable. Unless otherwise stated on the face of the Order, payment of each invoice is due from Buyer no later than ninety (90) days from the later of
 - 1. the date of receipt of Products or completion of Services, as applicable, or
 - 2. the date of receipt of a correct invoice.
- B. Except as otherwise stated on the face of the Order or in the Company-Specific Addendum, the prices and/or rates set forth in the Order are stated in U.S. Dollars and are not subject to exchange rate adjustments. The price and/or rates set forth in the Order include all applicable taxes and all profit, wages, salaries, overhead, and other costs and expenses, unless otherwise specifically addressed in the Order. No overtime, expedite charges, or other premium rates will be paid unless specifically authorized by Buyer in the Order.
- C. Except as otherwise stated on the face of the Order or in the Company-Specific Addendum, Seller shall submit a separate invoice per shipment of Products. Unless otherwise specified in the Order, no invoice shall be issued prior to shipment of Products or completion of Services, as applicable. Seller shall include or provide such information or supporting documentation as Buyer may reasonably require in support of the invoice. At any time prior to final payment under the Order, Buyer may have invoices audited as to validity. Payment of Seller's invoices shall be subject to adjustment for any amounts found upon audit or otherwise to have been improperly invoiced.
- D. Unless otherwise agreed by Buyer, Buyer shall have no obligation to pay any Seller invoice submitted more than six (6) months after the date of delivery of the invoiced Products or completion of the invoiced Services.
- E. Payment shall not constitute acceptance of Products or Services.
- F. Buyer shall have the right to set off against any Seller invoice any amount owing by Seller to Buyer, whether under this or any other contract or order between the Parties.

9. CHANGES

- A. Buyer may at any time, by written notice to Seller, make changes within the general scope of the Order including, but not limited to:
 - 1. products or services;
 - 2. drawings, designs, specifications, planning, and/or other technical documents;
 - 3. method of shipment, packaging, or packing;
 - 4. place of delivery;
 - 5. quantity of product (increase or decrease);
 - 6. delivery schedule(s), delivery rates and schedule for performance of Services;
 - 7. flow-down requirements from Buyer's customer and/or the U.S. Government;
 - 8. Buyer furnished property, and the allocation of responsibility as between Buyer and Seller for the production of any component of any product;
 - 9. place of inspection; and
 - 10. place of acceptance.
 Seller shall immediately comply with such change(s) upon receipt of notice, and proceed with performance of the Agreement irrespective of the failure of the Parties to agree to an equitable adjustment as described below.

- B. Except as otherwise expressly set forth in the Order, if the change causes a material increase or decrease in the cost of or time required to perform the Order, then an equitable adjustment may be negotiated and agreed and once agreed made in the purchase price and/or delivery schedule and the Order shall be modified in writing accordingly.
- C. Seller shall provide written notice of its intent to assert any claim for equitable adjustment within ten (10) calendar days from the date of receipt by Seller of Buyer's written notice of change and shall provide all supporting documentation necessary to verify its claim within thirty (30) calendar days after its delivery of such written notice of intent. Any claim that is not submitted to Buyer in accordance with this paragraph shall be unconditionally waived.
- D. If Seller claims the cost of any property made obsolete or excess, Buyer shall have the right to prescribe the manner of disposition of such property, and Buyer may elect to acquire all such property for an amount not to exceed the cost claimed by Seller.
- E. Failure to agree to any adjustment shall constitute a dispute within the meaning of the Disputes and Governing Law clause. However, nothing in this Changes clause shall excuse Seller from proceeding with the Order as changed.

10. ADEQUATE ASSURANCE OF PERFORMANCE

- A. If at any time Buyer has reasonable grounds for insecurity as to whether Seller's performance will be full, timely, and continuing in accordance with the terms of the Order, then Buyer may request, by written notice to Seller, adequate assurances in writing that Seller is able and willing to perform all its respective obligations under the Order when and as specified herein.
- B. Seller shall prepare and provide with its assurances of performance any information, reports, or other materials as Buyer may reasonably request to ascertain that Seller is able to perform its obligations under this Order when and as specified herein. Upon Buyer's request and as soon as practicable, Seller shall make available its employees, including members of Seller's senior management, to meet with Buyer to discuss those assurances of performance. Buyer may suspend all or any part of its performance hereunder until Buyer receives an assurance of performance from Seller satisfactory in form and substance to Buyer.
- C. If Seller does not provide adequate written assurances within ten (10) calendar days after Buyer's written notice and request, then Buyer may, at its option, treat the Order as breached by Seller.

11. DEFAULT; REMEDIES FOR DEFAULT

- A. Each of the following shall constitute an "Event of Default" under the Order:
 - 1. Seller fails to deliver the Products or to perform the Services within the time specified in the Order or any extension granted in writing by Buyer;
 - 2. Seller breaches or fails to perform any of the other provisions of the Order and, if such breach or failure is subject to cure, fails to cure such breach or failure within a period of ten calendar days after receipt of written notice from Buyer specifying Seller's breach or failure to perform;
 - 3. Seller fails to provide adequate assurances of performance in accordance with the Adequate Assurance of Performance clause; or
 - 4. Seller becomes insolvent or makes a general assignment for the benefit of creditors, or files or has filed against it a petition of bankruptcy or for reorganization or pursues any other remedy

under any other law relating to the relief for debtors, or a trustee or receiver is appointed for Seller's property or business.

B. If any Event of Default occurs:

1. Buyer may, at its sole option, immediately terminate the Order, in whole or in part, by giving written notice to Seller, and Buyer shall not be required to accept the tender by Seller of any Products or Services subject to the termination, including any component, part or feature thereof.

Whether or not Buyer exercises its right to terminate the Order, Buyer may manufacture, produce, or provide, or may engage any other persons to manufacture, produce, or provide, any products and/or services in substitution for (or in addition to) the Products and/or Services to be delivered by Seller. In the event Buyer exercises this right of cover in the absence of a termination, this right of cover shall extend for such time as Buyer determines in its sole discretion is necessary to mitigate or remedy Seller's default(s).

2. Whether or not Buyer exercises its right to terminate the Order, Seller shall be liable for all losses and damages to Buyer resulting from Seller's Event(s) of Default, including, but not limited to:
 - a. the difference between the price of Products and/or Services under the Order and the aggregate expense, including, without limitation, administrative and other indirect costs, paid or incurred by Buyer to manufacture, produce or provide, or engage other persons to manufacture, produce or provide such Product(s) or Service(s);
 - b. delay and disruption costs incurred by Buyer which are proximately caused by the Event(s) of Default; and
 - c. any other costs or damages which Buyer incurs or for which Buyer is responsible which are proximately caused by the Event(s) of Default. Such costs will include costs or damages imposed on Buyer by Buyer's customer as a result of Seller's breach of warranty, such as, e.g., delay damages or damages incurred by Buyer's customer of a similar nature to those described in this paragraph, and Seller acknowledges that such damages are reasonably foreseeable. These remedies are in addition to any remedies Buyer may have at law or in equity.

- C. If, after a notice of termination is issued pursuant to this Default; Remedies for Default clause, it is determined for any reason that Seller was not in default or that Buyer's termination was not a proper termination for default, the rights and obligations of the Parties shall be the same as if a notice of termination for convenience had been issued pursuant to the Termination for Convenience clause of the Order.

12.TERMINATION FOR CONVENIENCE

- A. Buyer may terminate the Order, in whole or in part, for convenience by providing to Seller a written notice of such termination, specifying the extent and effective date of such termination.
- B. In the event of a termination under this Termination for Convenience clause, Buyer shall be required to pay (to the extent not already paid) the Order price for Products and Services delivered and accepted, and Buyer and Seller shall agree on the amount of payment for any work in process and other long-lead material, if applicable, authorized by Buyer to be acquired or produced for the work terminated. Notwithstanding the foregoing, Buyer shall not in any event be

required to pay any amounts more than the Order total price and no amount will be allowed for profit on the terminated portion of the Order. In the event of a partial termination, no adjustment will be made in the price of that portion of the Order which has not been terminated.

Seller shall submit a final termination settlement claim, if any, to Buyer, in the form prescribed by Buyer, within three (3) months after the effective date of termination. Any termination settlement claim that is not submitted to Buyer in accordance with this paragraph shall be unconditionally waived.

13. SELLER'S OBLIGATIONS UPON TERMINATION

- A. After receipt of a notice of termination, for any reason, and except as directed by Buyer, Seller shall immediately proceed with the following obligations and any other actions directed or authorized by Buyer, regardless of any delay in determining or adjusting any amounts due, if any, under the Termination for Convenience clause:
 - 1. Stop work as specified in the notice.
 - 2. Place no further subcontracts or purchase orders for materials, services, or facilities, except as necessary to complete the continued portion of the Order.
 - 3. Terminate all subcontracts and purchase orders to the extent they relate to the work terminated.
 - 4. Promptly provide Buyer an inventory, including location and completion status, of all fabricated or unfabricated Products, work in process, completed work, supplies, and other material produced or acquired for the work terminated.
 - 5. As directed by Buyer, transfer title and deliver to Buyer (or Buyer's designee): (i) the fabricated or unfabricated Products, work in process, completed work, contract rights, supplies, and other material produced or acquired for the work terminated; and (ii) the completed or partially completed plans, drawings, information, tooling, equipment, and other property that, if the Order had been completed, would be required to be furnished to Buyer.
 - 6. Complete performance of the work not terminated.
 - 7. Take any action that may be necessary, or that Buyer may direct, for the protection and preservation of the property related to the Order that is in the possession of Seller and in which Buyer has or may acquire an interest. Seller's transfer or delivery of Products to Buyer (or Buyer's designee) under this Seller's Obligations upon Termination clause shall be at no cost to Buyer, except that (i) under a Termination for Convenience, Seller may include its reasonable costs associated with such transfer and delivery as part of a Termination for Convenience claim; and (ii) under a Termination for Default, Buyer shall take into consideration in mitigation of any claims by Buyer for damages as a result of an Event of Default the value of all Products transferred.
- B. Seller hereby authorizes Buyer, its representatives, or its designees to enter upon Seller's or any of its subcontractors' premises at any time during reasonable business hours, upon reasonable advance written notice, for the purposes of taking inventory and/or physical possession of any of all the aforesaid items.
- C. Seller shall, if instructed by Buyer, store or dispose of any or all the aforesaid items in any reasonable manner requested by Buyer.

14. EXCUSABLE DELAY AND DISASTER RECOVERY

- A. If the delivery of any Product or the performance of any Service is delayed by unforeseeable circumstances beyond the control and without the fault or negligence of Seller or any tier of its suppliers or subcontractors (any such delay being hereinafter referred to as "Excusable Delay"), the schedule for delivery of such Product or performance of such Service may be revised as determined by Buyer.
- B. Excusable Delays may include, but are not limited to, acts of God, war, riots, acts of government, fires, floods, epidemics, quarantine restrictions, freight embargoes, or unusually severe weather, but shall exclude Seller's noncompliance with any rule, regulation or order promulgated by any governmental agency. However, the above notwithstanding, Buyer expects Seller to continue production, recover lost time and support all schedules as established under the Order. Therefore, it is understood and agreed that:
 - 1. delays of less than two (2) calendar days' duration shall not be considered to be Excusable Delays unless such delays shall occur within thirty (30) calendar days prior to the scheduled delivery date of any Product; and
 - 2. if delay in delivery of any Product or performance of any Service is caused by the default of any tier of Seller's suppliers or subcontractors, where a substitute is available, such delay shall not be considered an Excusable Delay.
- C. Seller shall give to Buyer notice in writing within ten (10) days of the commencement of the Excusable Delay when it appears that an Excusable Delay will delay the furnishing of Products or Services, and Seller shall provide a recovery plan acceptable to Buyer within ten (10) calendar days after submission of such notice. Notwithstanding the occurrence of an Excusable Delay, Seller shall use its best efforts to mitigate the effects of the Excusable Delay. In addition, Seller shall endeavor to make available to Buyer substitute Products or Services in an adequate quantity, at no additional charge to Buyer. If an Excusable Delay extends beyond thirty (30) days, Buyer may cancel or terminate, without penalty or obligation for further payment, the Order.
- D. Notwithstanding the foregoing, if Seller provides parts that:
 - 1. are considered in the industry to be "flight safety parts";
 - 2. are a sole source of supply; or
 - 3. have lead time in excess of one hundred twenty (120) days, or if Buyer otherwise so instructs Seller, then Seller shall develop and maintain a disaster recovery plan for the recovery and continuation of business related to the design, development, certification, manufacture, sale, use and/or support of the Products furnished hereunder, in the event of a disaster or emergency. Such disaster recovery plan shall, among other things, prevent or limit the interruption of the supply of Products in conformity with the requirements set forth herein. Seller shall furnish a copy of such disaster recovery plan to Buyer upon request and shall cooperate in good faith with Buyer to incorporate any recommended changes that Buyer may suggest.

15. LABOR DISPUTES

Whenever Seller has knowledge that any actual or potential labor dispute involving Seller or any tier of Seller's suppliers or subcontractors is delaying or threatens to delay timely performance of the Order, Seller shall immediately give notice to Buyer, together with all relevant information, including, but not

limited to, nature of the dispute, estimated duration, labor organizations involved, and estimated impact on Seller's performance of the Order. Seller shall also provide updated reports throughout the dispute duration.

16. STOP WORK

- A. Buyer may, without cost or other liability and at any time, by written direction to Seller, require Seller to stop all or any part of the work called for by the Order for a period of up to ninety (90) calendar days after such written direction is delivered to Seller and for any further period to which the Parties may agree. Any such written direction shall be specifically identified as a Stop Work Order ("SWO") issued pursuant to this Stop Work clause. Upon receipt of a SWO, Seller shall immediately comply with its terms. Within the period of the work stoppage specified by the SWO and any amendments to the SWO, Buyer shall either:
 - 1. cancel all or part of the SWO, or
 - 2. terminate all or part of the work covered by such SWO as provided in the Termination for Convenience clause.
- B. To the extent an SWO issued under this Stop Work clause is canceled, or the period of the work stoppage specified by the SWO, or any extension thereof expires, Seller shall resume work and the Parties will agree upon a reasonable adjustment to the delivery schedule.

17. PROPRIETARY INFORMATION

- A. "Proprietary Information" means all information (including, but not limited to, oral, written, and/or stored information used, prepared by, compiled by or in the possession of a Party or its representatives) that is disclosed, provided, or made available by a Party (the "Disclosing Party") to the other party (the "Receiving Party") or otherwise received or obtained by the Receiving Party in contemplation of or in connection with the Order, in whatever form or medium disclosed, provided, made available or received, that (1) is considered proprietary or confidential by the Disclosing Party and is identified as such by the Disclosing Party in writing, regardless of whether marked proprietary or confidential; or (2) is information received from others that the Disclosing Party is obligated to treat as confidential and the Disclosing Party communicates such obligation to the Receiving Party in writing. Proprietary Information includes memoranda, reports, analyses, extracts or notes the Receiving Party produces that are based on, reflect, or contain any of the Disclosing Party's Proprietary Information; and Buyer's Proprietary Information includes any information about the Order, including the existence, terms, contents, or status thereof.
- B. Each Receiving Party agrees that it shall maintain in confidence and secrecy, and not disclose to any third party or use, directly or indirectly, except as set forth below, all Proprietary Information received from or made available by the Disclosing Party or received orally or visually. Each Receiving Party shall protect the Disclosing Party's Proprietary Information from unauthorized disclosure and use and protect it with at least the same degree of care the Receiving Party normally exercises to protect its own Proprietary Information to prevent undesired dissemination and use thereof, and in no case shall the degree of care be less than reasonable care. Each Receiving Party further agrees not to reverse engineer, reverse assemble, or decompile any Proprietary Information or any tangible items disclosed by the Disclosing Party.
- C. Each Receiving Party may:

1. copy the Proprietary Information received from the Disclosing Party on an as-required basis in order to fulfill the Receiving Party's obligations under the Order, provided that all such copies or portions thereof bear copies of the Disclosing Party's original legends (if any); and
 2. disclose the Proprietary Information to those of the Receiving Party's officers and employees (including officers and employees of its Affiliates), and others under the Receiving Party's control (collectively, "Representatives"), who have a need to-know for purposes of its performance under the Order. Additionally, the Receiving Party may disclose the Disclosing Party's Proprietary Information to any third party participating in Buyer's customer's program to the limited extent necessary for Seller to perform its obligations under the Order or for Buyer to perform its obligations under such program, in each case provided that such third party has entered into a written agreement of confidentiality with the original Receiving Party that includes provisions for the protection of Proprietary Information substantially the same as provided in this Proprietary Information clause. The Receiving Party shall cause all of its Representatives to observe the terms of this Proprietary Information clause and shall be responsible for any breach of the terms of this Proprietary Information clause by it or its Representatives. "Affiliate" shall mean, with respect to any entity, any other entity directly or indirectly controlling, controlled by, or under common control.
- D. The obligations imposed by this Proprietary Information clause shall not apply, or shall cease to apply, to any Proprietary Information if or when, but only to the extent that, such Proprietary Information:
1. was known to the Receiving Party prior to its receipt of the Proprietary Information hereunder;
 2. passes into the public domain (other than by act or omission attributable to the Receiving Party);
 3. becomes known to the Receiving Party from sources other than the Disclosing Party under circumstances not involving, to the knowledge of the Receiving Party, any breach of any confidentiality obligation; or
 4. is independently developed by the Receiving Party who had no substantive knowledge of the Disclosing Party's information or data, as evidenced by the written records thereof.
- E. It shall not be a breach of the confidentiality obligations herein for a Receiving Party to disclose Proprietary Information in circumstances where, but only to the extent that, such disclosure is required by law or applicable legal process, provided in such case the Receiving Party shall to the extent not prohibited by law or regulatory process,
1. give the earliest notice practicable to the Disclosing Party that such disclosure is or may be required; and
 2. cooperate, at the expense of the Disclosing Party, in protecting the confidential or proprietary nature of the Proprietary Information which must so be disclosed.
- F. If Seller has previously agreed to comply with or adhere to Buyer's customer's confidentiality or non-disclosure obligations or requirements, Seller agrees that such obligations or requirements shall continue to apply, in addition to the obligations and requirements set forth in this Proprietary Information clause. Except as expressly provided in this Proprietary Information clause or in the Intellectual Property clause, no right in, or license to, any present or future idea, invention, patent, trade secret, proprietary information, copyright, mask work, trade name or

trademark is either offered or granted under this Proprietary Information clause, nor may any such right or license be implied by the disclosure or receipt of any information or data hereunder.

- B. the effect of such use or possession; and
- C. the corrective action taken in response thereto. Seller acknowledges that Buyer may be required to notify its customers, regulators, and/or employees of such security incidents and agrees to assist and cooperate with Buyer, at Seller's expense, with any investigation, disclosures to affected parties, and other remedial measures, in each case, as reasonably requested by Buyer or required by any applicable regulations or privacy laws.

19. INTELLECTUAL PROPERTY

- A. "Intellectual Property" means patented and unpatented inventions and discoveries, improvements, pending patent applications, mask works, copyrighted works and copyrightable subject matter in published works and unpublished works, pending copyright registration applications, computer software, data, databases and documentation thereof, deliverables, trade secrets and other confidential information, know-how and proprietary processes, business methods, formulae, designs, models, specifications, process information, reports and documented information, technical data and methodologies, trademarks, trade names, and other similar intangible assets. IP includes all worldwide common law and statutory rights to the foregoing, including but not limited to, patents, industrial designs, trade secrets, copyrights, mask work registrations and the like.

Seller shall own any Intellectual Property invented, authored, or developed by Seller prior to the date of the Order that relates to the Products delivered or Services performed by Seller under the Order, and Seller hereby grants Buyer a nonexclusive, royalty-free, non-terminable, irrevocable, worldwide right and license to practice and use and license others to practice and use such Intellectual Property, and to make, have made, use, sell, offer for sale, and import into the United States (and all other countries in which Seller may have rights in such Intellectual Property) products, processes, services, or inventions incorporating or embodying such Intellectual Property, to the extent such Intellectual Property would otherwise interfere with use or enjoyment of the Products or Services by Buyer, its subcontractors or suppliers at any tier, or its customers or users at any tier.

- B. Buyer shall own and Seller acknowledges that any Intellectual Property invented, authored, or developed by Seller in the performance of the Order shall be owned exclusively by Buyer, and Seller agrees to and hereby does presently assign such Intellectual Property to Buyer and further agrees to and shall:

1. execute any and all documents necessary and requested by Buyer to perfect Buyer's title in such Intellectual Property, including, but not limited to, assignments of all right, title, and interest Seller may have in such Intellectual Property;
 2. obligate Seller's employees and/or contractors involved in the invention or development of such Intellectual Property to execute all documents necessary and requested by Buyer to perfect Buyer's title in such Intellectual Property, including, but not limited to, inventor's declarations and assignments of all right, title, and interest such employees may have in such Intellectual Property; and
 3. obtain for Buyer all such executed documents as set forth in section 19.B.(2) above. Buyer hereby grants Seller a limited, nonexclusive, royalty- free, irrevocable, worldwide right and license to use Intellectual Property invented, authored, or developed by Seller in the performance of the Order, and to make, have made, use, sell, offer for sale, or import into the United States (and all other countries in which Buyer may have rights in such Intellectual Property) products, processes, services, or inventions incorporating or embodying such Intellectual Property, but such license to Seller is specifically limited to and for the sole purpose of Seller fulfilling its requirements and responsibilities under the Order.
- C. Seller represents and warrants that Seller owns, or has and will maintain a license to use, all intellectual property rights necessary for the performance of its obligations under the Order. In addition to and without in any way diminishing or restricting Seller's obligations under this Intellectual Property clause, if any Product or Service, or any component, part or feature thereof, becomes the subject of any claim, suitor action related to the infringement of any intellectual property rights, or in the event of an adjudication that any Product or Service, or component, part or feature thereof, infringes any intellectual property rights, or, if the manufacture, sale, use or maintenance of any Product or Service, or part, component or feature thereof, is enjoined or restricted, Seller shall, in order for Buyer and its customers and users at any tier to have uninterrupted use and enjoyment of such Product or Service, or part, component or feature thereof, at Seller's option and expense:
1. procure for Buyer and its customers and users at any tier the rights, under such intellectual property rights, to manufacture, sell, use or maintain such Product or Services, or part, component or feature thereof;
 2. replace such Product or Service, or part, component or feature thereof with one of a similar nature and quality that is non- infringing; or
 3. modify such Product or Service, or part, component or feature thereof to make it non- infringing.
- D. Except to the extent such infringement arises from Seller's compliance with formal specifications issued by Buyer and such infringement could not be avoided in complying with such specifications, Seller shall indemnify, defend, and hold harmless Buyer, any of its customers or users at any tier, and their respective Affiliates, and each of their respective officers, directors, employees, subcontractors, agents, successors and assigns (collectively, "Buyer Indemnitees") from and against any and all claims, suits, actions, awards (including, but not limited to, awards based on intentional infringement of patents known to Seller and exceeding actual damages and/or actual attorneys' fees), liabilities, damages, penalties, fines, costs, expenses, and attorneys' fees arising from any actual or alleged infringement of any United States or foreign intellectual property rights (including, but not limited to, any right in a patent, copyright, trademark, industrial design, or

mask work, or based on misappropriation or wrongful use of information or documents) related to any Product or Service or otherwise related to Seller's performance under or in contemplation of the Order. The Buyer Indemnitee shall duly notify Seller of any such claim, suit, or action, and Seller shall, at its own expense, fully defend such claim, suit, or action on behalf of the Buyer Indemnitees.

20. INSURANCE AND INDEMNITY

None of the requirements contained in the Order as to insurance coverage to be maintained by Seller is intended to and shall not in any manner limit, qualify or quantify the liabilities and obligations assumed by Seller under the Order or otherwise provided by law or in equity. All of Seller's insurance coverages shall be primary and without contribution from any insurance coverages which may otherwise be carried by Buyer.

- E. In addition to any other indemnification provisions of the Order, Seller shall indemnify, defend and hold harmless the Buyer Indemnitees from and against any and all claims, suits, actions, awards, liabilities, losses, damages, penalties, fines, costs, expenses, and attorney's fees, that arise out of or are based upon any actual or alleged:

For purposes of these Qarbon Aerospace General Purchase Order Terms and Conditions, the term "Laws" shall mean any federal, state, provincial, local, or foreign law, rule, regulation, order, or other similar authority, including, but not limited to employment, safety, health, packaging, labeling, transportation, and environmental laws, now and hereinafter in effect.
- B. Without limiting the foregoing:
1. Seller represents and warrants that, if the Order involves delivery of any Hazardous Material, the packaging and shipment of such Hazardous Material shall be made in accordance with all applicable Laws, and Seller shall submit a copy of a current Safety Data Sheet (SDS) to Buyer prior to delivery of that material. "Hazardous Material" shall mean any pollutant, contaminant or other substance regulated as a result of its potential to pose a meaningful risk to public health or the environment.
 2. Seller further represents and warrants that (i) the Products and any substances contained therein or utilized in the production thereof are not prohibited or restricted by, and shall be offered, supplied and utilized in compliance with, all applicable Laws, including but not limited to European Regulation (EC) No. 1907/2006, as may be amended, concerning the Registration,

Evaluation, Authorization and Restriction of Chemicals ("REACH"), and (ii) all such Products have been pre-registered, registered, evaluated, addressed in notifications and/or authorized as required under REACH. Seller shall bear all costs, charges and expenses related to pre-registration, registration, evaluation, and authorization required under REACH of the Products and substances in Products that are the subject of the Order.

3. In addition to the foregoing obligations, Seller shall, at Seller's expense, timely provide Buyer with all relevant information, on the Products and any substances contained therein or utilized in the production thereof, as Buyer determines to be useful or necessary for Buyer and/or Buyer's customers to timely and accurately fulfill their obligations under REACH and other applicable Laws. In such event, Seller shall discuss with Buyer any needed actions to ensure continued supply and use of the Products in compliance with REACH.  - b. it can be demonstrated that the risks of such uses are adequately controlled and/or Seller can otherwise be granted an authorization as specified in REACH. If Seller cannot reasonably meet these conditions, Seller shall diligently seek to identify and develop alternatives and obtain any necessary authorizations for Product use by Buyer before any relevant "Sunset date" under REACH. The listing of a substance present in the Product in the REACH Candidate List or in Annex XIV of REACH shall not in itself constitute a valid cause for Seller to fail to perform or delay performance under an Order pursuant to the Excusable Delay and Disaster Recovery clause.
4. **To the extent not exempt, Buyer and Seller shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60- 741.5(a). The remedies

GOVERNMENT CONTRACT CLAUSES. Orders issued under Prime Contracts with the U.S. Government or subcontracts at any tier under U.S. Government contracts shall incorporate the additional terms and conditions applicable to orders issued under Government contracts.

The appearance of a U.S. Government agency Prime Contract number on an Order shall conclusively establish the applicability and the incorporation by reference of that agency's clauses referenced herein. These clauses are supplemental to and a continuation by

reference of the Qarbon Aerospace General Purchase Order Terms and Conditions and Buyer's Company-Specific Addendum (if any), except that in the event of any inconsistency, these Additional Terms and Conditions Applicable to Orders Issued under Government Contracts shall take precedence.

The effective version of each Federal Acquisition Regulation (and Defense Federal Acquisition Regulation Supplement shall be the version in effect at the time the associated U.S. Government Prime Contract was issued. While every effort has been made to include all potentially applicable FAR and DFARS clauses in this Addendum, any clause which is required under a statute or regulation to be included in an Order shall be considered to be included by operation of law, even if it has been omitted from this Addendum. If any of the FAR or DFARS clauses are expressly made inapplicable by a threshold amount or other limitation, they shall be self-deleting. The full text of the FAR and DFARS clauses identified below may be accessed electronically at <https://www.acquisition.gov>.

(a) GOVERNMENT INSPECTION. All goods (which term includes without limitation raw materials, components, equipment, intermediate assemblies, end products and technical data) shall be subject to inspection and test by the Government to the extent practicable at all times and places including the period of manufacture, and in any event prior to Government acceptance. If any inspection or test is made by the Government on the premises of Seller or Seller's subcontractor(s), Seller shall

provide and shall require such subcontractor to provide all reasonable access to such premises and facilities as well as assistance for the safety and convenience of the Government personnel in the performance of their duties. All inspections and tests by the Government shall be performed in a manner as will not unduly delay the work. Seller shall include the substance of this clause in all subcontracts issued hereunder.

(b) PRICING OF ADJUSTMENTS. When costs are a factor in any determination of a contract price adjustment pursuant to the "Changes" clauses or any other provision of this Order, such costs shall be determined in accordance with Part 31 of the FAR and Part 231 (I) of the DFARS, including but not limited to DFARS §252.215-7000, Pricing Adjustments.

Upon request, Seller shall provide relevant documentation to support Seller's assertion that its goods or services satisfy the definition of "commercial items" under FAR §2.101.
